Built for Work, Ready for Anything

K9 SERIES

BUILT TO PULL, TOW AND HAUL YOUR TOUGHEST JOBS WITH EASE

The KIO TI K9 Series utility vehicles are built for tough work, all-terrain performance, and year-round comfort. With a powerful diesel engine, smooth CVT transmission, four-wheel drive, and hydraulic disc brakes, the K9 handles hauling, towing, and transporting with ease. Choose from three models: the K9 2400 with a durable open-station design, the K9 2440 with two bench seats and capacity for 5, or the K9 2440 Cab, featuring a climate-controlled cab with heat and A/C. There's a K9 built for every job.

- **Ground Speeds up to 31 mph (50 km/h)**
- **1-Row, 2-Row and Cab Models**
- **Climate Control System (Cab Models)**

K9 SERIES

BUILT FOR REAL WORK, NO SHORTCUTS

Fuel Efficient Diesel Engine

The 24 hp, fuel-efficient, 3-cylinder inline vertical water-cooled diesel engine delivers smooth operation and reliable performance, combining power and efficiency to tackle tough off-road terrain and demanding UTV tasks.

Single Row, Dual Row or Cab Models

The single row model seats 3, dual row seats 5, and the single row cab model keeps you protected from the elements—options for every crew and condition.

Spring Lift Cargo Bed

The K9's wide bed offers a 1,102 lb. capacity and includes a standard spring-assisted lift to reduce the effort of manual dumping. Add the optional power dump kit and unload with ease.

Proven Quality and Performance

KIOTI engines are known for exceptional performance and fuel efficiency. Backed by over 65 years of innovation, they meet rigorous global standards like EPA, CARB, and EEC certifications. Built for reliability and durability, these engines are a trusted choice for a wide range of demanding applications.

Four Tire Options

With four tire options to choose from, each designed to meet specific terrain demands and performance preferences, there's a tire that matches your needs. For added style and durability, aluminum wheels are available with the Heavy Duty, ATV and Tomahawk tire packages.

Spray-In Bed Liner

Standard spray-in bed liner increases durability, while adding friction to create an extra layer of security for cargo. Strap hooks located inside and outside of the bed offer multiple points to conveniently secure payloads while traversing the roughest terrain.

Half Door with Airflow

Enhances safety and protection by keeping out brush and debris, while offering improved airflow, easy access, lightweight design, and better visibility—ideal for rugged trails and versatile use.

Power Steering with Tilt

Minimizes the effort required to make tight, repetitive turns. The steering wheel tilts with the simple push of a lever, allowing easy adjustment to fit the operator's needs.

Windshield Kit with Wiper (Optional)

Optional windshield kit includes integrated wiper for clear visibility. Provides added protection from wind, dust, and debris in tough working or off-road conditions.

Automotive-Style Dashboard

Landowners will benefit from the automotive-style dash configuration with its ergonomic design allowing the driver to view or easily access levers and switches. The instrument panel allows for visibility during any hour of the day or night.

Front/Rear Hitch Receivers

Versatile and rugged, the front and rear hitch receivers enhance the K9's utility, making it ideal for towing, winching, or attaching accessories with ease.

Dual A-Arm Suspension

Engineered for performance, the dual A-arm suspension provides enhanced stability, responsive handling, and a smoother ride over rugged terrain.

K9 SERIES

RUGGED PERFORMANCE FOR ANY TERRAIN

Power and USB Sockets

Conveniently power essential accessories or tools on the go with the built-in 12V power socket and convenient USB charging port.

High Ground Clearance

With 10.5 to 12.5 inches of ground clearance, the K9 is engineered to navigate uneven terrain and obstacles with a reduced risk of underbody contact – ensuring dependable performance across a variety of environments.

Convenient Drink Holder

Keep your drinks secure and within easy reach, so you can stay hydrated and focused while on the job or trail.

Abundant Storage

With an open and closed storage area on the dash and storage available under the hood, the K9 offers convenient storage options. The K9 2440 has additional storage under the front seat for larger items.

Tilt-Opening Windshield (Cab Models)

Tilt-opening windshield provides adjustable airflow and easy access, enhancing comfort and convenience for every ride and terrain.

Heat & A/C (Cab Models)

The advanced HVAC system provides optimized heating and cooling, ensuring a comfortable cabin year-round. Engineered for efficiency and durability, this system enhances operator comfort and productivity.

Pre-Wired Audio Den (Cab Models)

Enjoy your favorite tunes on the job with integrated audio speakers, sound-deadening headliner, and optional Bluetooth radio for crisp, clear sound anytime.

Durable Polymer Doors (Cab Models)

Durable polymer doors provide added protection and comfort, with a rugged build that stands up to tough conditions while reducing noise and dust intrusion.

NOTE: Specifications and design are subject to change without notice.

STANDARD EQUIPMENT

- Hydrostatic Power Steering
- Front Grill Guard
- Speedometer
- Front Hitch Receiver
- Brake Lights/Turn Signals
- Skid Plates
- Floor Mat
- Suspension Dust Guards
- Muffler Spark Arrestor
- Parking Brake Buzzer
- Spray-In Bed Liner
- Climate Control System (Cab Model)
- Headrest (Cab Model)
- Front Work Lights (Cab Model)

OPTIONAL EQUIPMENT

- Laminated Glass Windshield Kit (with Wiper)
- Sun Canopy Kit
- Hydraulic Bed Dump (ROPS Model Only)
- Electric Dump Bed (Cab Model Only)
- Remote Hydraulic Kit
- Hand Throttle Kit
- Rear Screen Kit
- Fog Lamp
- Working Lamp
- Side View Mirror
- License Plate Bracket
- Beacon Light Wiring
- Back-Up Alarm
- Aluminum Wheels
- Winch
